

Mrs Eyre: March 2021

# Return to school for Year 11

# Welcome back – we've missed you!

## What will the next few months bring?

- Centre Determined Grades (CDGs)
- A range of assessment information from the past, present and future.
- Not the same as Centre Assessed Grades last year:
  - No algorithm
  - Not a prediction

## Which subjects will be awarded using CDGs?

- GCSEs which will be 'cashed in'.

### Year 10:

- GCSE Mathematics\*
- GCSE English Literature

### Year 11

- All GCSE qualifications
- Vocational subjects

Some other qualifications, such as Personal Finance and Equality and Diversity, will be assessed using 'TAGs' (Teacher Assessed Grades).

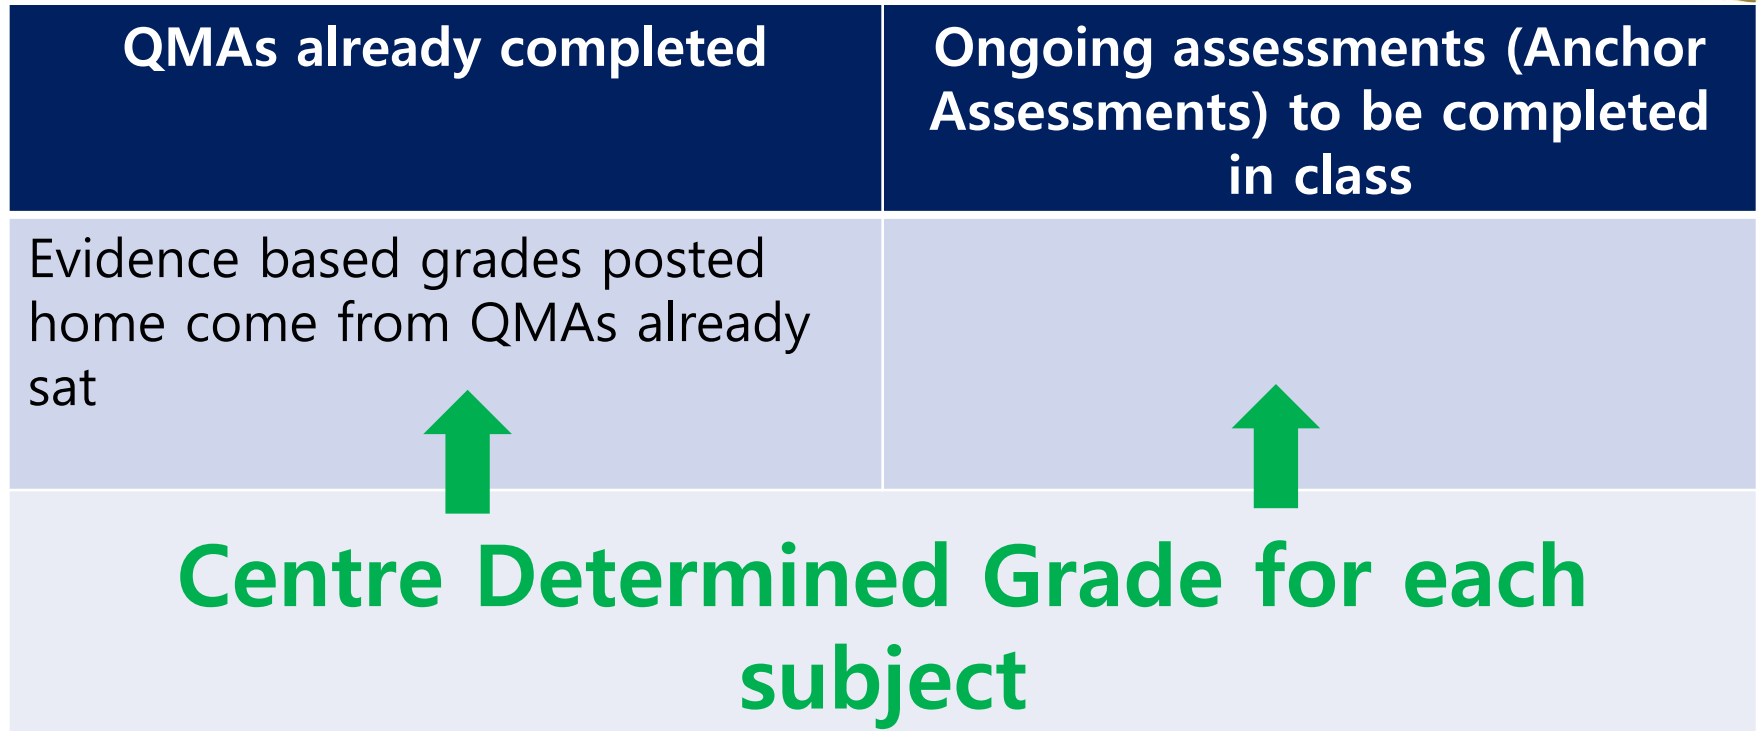

## What counts towards my CDGs?

- You won't be assessed on anything we have not taught your year group.
- We will use QMAs and other assessment information we already have – Evidence Based Grades have been shared with you.
- We will continue to develop your' knowledge and skills – focus on continued Teaching and Learning.
- We will continue to assess during lessons.

# What do the Evidence Based Grades tell me?

## What will this be like over the next few months?

- You won't sit exams in the Theatre.
- You will sit papers and parts of papers in class, supervised by your class teacher.
- These will be on an ongoing basis and your teachers will tell you when they are happening.
- You may continue to complete your NEAs.
- Your subject teachers will explain the details of each subject.
- If you have any additional support you are entitled to.

# Worried?

- Missed QMAs
- Haven't been trying my best up until now
- Feeling stressed/anxious/struggling?
- Worried I won't do well in future assessments

## Key messages...

- ✓ You have been working excellently at home.
- ✓ We have lots of evidence of excellent achievement already.
- ✓ You still have time to demonstrate your learning and skills.
- ✓ The focus needs to be on continued learning, supported by ongoing assessment.
- ✓ We will continue to keep you informed.
- ✓ We are here to help and want all students to excel.
